

Transparency Act Statement – §5 Compliance

Barents NaturGass AS (BNG)

Reporting year: 2026

§5 (a) General description of the organisation

Barents NaturGass AS (BNG) is a wholly owned subsidiary of Broadview Energy Solutions, based in the Netherlands. BNG sells and distributes liquefied methane, including liquefied biogas (LBG) and liquefied natural gas (LNG). The company also develops and operates customer terminals, truck filling stations, and bunkering facilities. BNG operates in Norway, Sweden, and Finland.

§5 (b) Policies and governance

BNG has established internal policies and management systems intended to support compliance with the Norwegian Transparency Act. These include a quality management system (ISO 9001:2015), an environmental management system (ISO 14001:2015), ethical guidelines (Code of Conduct), an HSEQ manual, an employee handbook, and defined supplier requirements and approval procedures.

§5 (c) Due diligence processes

BNG conducts due diligence assessments related to human rights and decent working conditions as part of its internal risk management processes. These assessments are performed on an ongoing basis and are updated when relevant changes occur in operations, supplier relationships, or risk exposure.

§5 (d) Identified actual and potential adverse impacts

Based on information available to the company as of 2026, BNG has not identified any confirmed breaches of fundamental human rights or unacceptable working conditions within its own operations or supply chains. This statement reflects the results of assessments performed and does not constitute a guarantee that such impacts have not occurred.

§5 (e) Measures implemented or planned

BNG seeks to mitigate identified risks through supplier requirements, supplier approval procedures, audits where deemed appropriate, and contractual provisions addressing non-compliance. Where relevant and legally permissible, follow-up measures are implemented through the company's internal deviation and incident management processes.

§5 (f) Results and follow-up

BNG continuously monitors the effectiveness of its due diligence processes and revises its measures as necessary. Follow-up activities are conducted based on risk, relevance, and proportionality.

Reporting of concerns

Questions or concerns related to BNG's work under the Transparency Act may be submitted to:
